AGI Gaming Colombia Presents the Latest NOVOMATIC Portfolio at FADJA

The first Latin American gaming show to follow ICE, Feria Andina de Juegos de Azar (FADJA), takes place from April 8-9 in the Colombian capital Bogotá, and the local NOVOMATIC subsidiary AGI Gaming Colombia will take pride of place with a Latin American premiere presentation of all the latest product first unveiled in London.

At the centre of the presentation will be the magnificent new cabinet, DOMINATOR® Curve. This latest innovation ideally merges the sophisticated ergonomic and design elements of its predecessor, the DOMINATOR®, with the huge advantage of its own unique feature – an upright 40" full HD curved touchscreen. For the player this offers an ergonomically perfect position in the focal point of the gaming action. The DOMINATOR® Curve will be presented in Colombia with a number of distinctive games highlighting among other features NOVOMATIC's first proprietary mystery progressive stand-alone jackpot.

Another Latin American premiere will be the display of the Imperator™ S3. Featuring three 24" HD screens this sophisticated video slot machine combines perfect ergonomics with a new creativity in gaming hardware manufacturing. Its clear shapes and sleek stainless steel applications, as well as the exclusive Impera Line™ HD Edition 1 mix of 33 HD games, sets the Imperator™ on course for a new sophisticated elegance in gaming.

A recurring sight at FADJA will be the NOVOSTAR® V.I.P. II slant top with its Crown V.I.P. chair – but this time with an increased 50" screen that creates an enhanced V.I.P. gaming experience for the entire range of NOVO LINE™ Interactive games – but especially for the new NOVO LINE™ Edition VIP 1, that is exclusively available for this grand casino slant.

Apart from the novelties the NOVOMATIC product presentation will include a number of highly popular best sellers such as the Panther Roulette™ II, the Magic Joker Jackpot™, the DOMINATOR® and NOVOSTAR® SL cabinets as well as the latest game editions.
